

Heat Treated Fiberglass Braided Rope with Stainless Mesh Core – Premium Grade - Clean Room & Paint Shop Suitable
1200°F / 648°C: Very High Temperature & Heat Resistant

Extremely clean heat treated braid for clean-room & paint shop gasket applications

- This rope starts with a stainless steel mesh core, providing a resilient push-back for applications such as kiln and lab oven doors, paint shop drying ovens.
- The stainless rope core is then overbraided with a high quality type E fiberglass filament yarn that will not burn and will withstand continuous exposure to temperatures of 1200°F / 648°C.
- This material resists most acids and alkalis and is unaffected by most bleaches and solvents. It is highly flexible and conformable.
- The filament yarn provides an extremely smooth and clean surface to the rope shell, and is excellent for use in clean room and paint shop ovens where loose fibers are not tolerated.

1200°F / 648°C continuous rating, high insulation value & excellent personnel protection
